

THRIVE NeXT™ FULL SYNTHETIC UNIVERSAL ATF

THRIVE NeXT™ Full Synthetic Universal ATF provides an innovative, versatile solution to most of your ATF needs. This advanced performance Full Synthetic ATF is specifically designed as a universal solution for modern automatic transmissions. Its state-of-the-art additive system provides optimum shear stability, oxidation resistance and durability delivering ultimate protection and peak performance in passenger cars, SUVs, and light trucks.

THRIVE NeXT™ Full Synthetic Universal ATF is designed for the strictest OEM specifications in low and high viscosity applications and is recommended where the following specifications are required: DEXRON VI, DEXRON IIG/IIH/IIIE, DEXRON II, MERCON LV, Hyundai/KIA SP-II/III/IV, Toyota WS/T-III/T-IV, Honda Z-1, Allison and Nissan Matic Fluids. See the table on the following pages for a comprehensive listing of 'suitable for use in' applications.

THRIVE NeXT™ Full Synthetic Universal ATF is compatible with traditional fluids whether used in a complete fluid change or vehicle top-off.

*** Not for use in extended drain heavy duty, Continuous Variable Transmissions (CVT), Dual Clutch Transmissions (DCT) or Ford Type F applications. This product cannot be used in Ultra Low Viscosity ATF applications such as Mercon ULV and Dexron ULV.**

*** Please note that legislation in California prohibits recommending this fluid in certain applications where the viscometrics do not match those of the official OEM specification. Therefore we do not recommend the use of THRIVE Universal ATF in these applications in California.**

Features / Benefits

- **Universal ATF**
Simplifies and consolidates inventories, reduces inventory investment
- **Excellent Oxidation Stability**
Superior and longer lasting high temperature protection, less sludge and improved wear protection
- **High Shear Stability**
Retains its excellent friction characteristics longer and across a wide temperature range providing smooth shifting and wear protection over extended service intervals
- **Improved protection against pitting**
- **Lower Foaming**

Typical Properties

Product Number	299
Kinematic Viscosity D-445 @ 40°C, cSt	28.4
Kinematic Viscosity D-445 @ 100°C, cSt	5.9
Viscosity Index	159
Brookfield Viscosity D-2893 cP at -40°C	11,992
Appearance	Red
